

Stud Contract of Pudgy Bulls  
Owners: Alycia and Kale Smith  
311 S. 4<sup>th</sup> Ave  
Paden City, WV 26159

This is a binding contract for stud services rendered. This contract will name the recipient the "client" and the contract will be void if not signed by both a representative of Pudgy Bulls and the client. Any amendments to this contract must be dated and signed again by both parties.

The stud service being provided is solely intended for the below mentioned female.

The stud service guarantees 3 live born puppies as a litter. If fewer puppies are born, or still born, Pudgy Bulls will provide up to two rebreedings to the below mentioned female. However, the puppies birth or lack thereof will need to be documented by a licensed veterinarian. Proof will need to be provided. If client chooses to "natural whelp" the litter at home, and there is no proof of number of puppies in the birthing process, another breeding will not be provided. In the event that the client's female does not result in pregnancy, proof will need to be provided via xray by 58 days post breeding to prove that the female did indeed not result in pregnancy. If xray is not provided, PudgyBulls will not honor a rebreed.

If buyer requires a rebreed, buyer will be responsible for any subsequent shipping costs of the semen.

Collection and Shipping of semen (chilled or frozen) if shipping be needed, will be at the client's expense. The cost for shipping is \$250 per shipment if shipped fresh chilled overnight with fedex. In the event that Fedex does not deliver by guaranteed day and they choose not to use the late arriving semen, client will be refunded the stud fee and shipping cost minus the current lock in price. Same day shipping from our local airport will cost \$500.

We recommend that if chilled semen is used in this breeding, the client have a TCI or Surgical AI to complete the breeding as this provides a higher chance that the female will result in a successful pregnancy.

If fresh chilled semen is needed, the client will give 24hr notice before semen needs to be shipped. If 24 hour notice is not able to be provided, PudgyBulls will do their best to ship the semen in time, but ultimately is not responsible unless the full 24 hour notice is provided.

Pudgy Bulls will expect agreed upon stud fee monies paid in full at time of breeding. PudgyBulls will accept cash, Cashier's check, wire transfer, cash app, Venmo, or Zelle as payment options. Deposits and payments made through 3<sup>rd</sup> party money apps will require an additional form to be signed and notarized before services are rendered.

Lock in deposit for stud will be \$500-\$1,000 and is nonrefundable. However, this deposit is transferable to another available stud at Pudgy Bulls yard. It will not be transferred to any other services we may offer.

In the event that the PudgyBulls stud mentioned below is unavailable for this breeding due to sickness, death, or some form of inability to preform, client may transfer to a different available stud. If chilled sample is not available, a frozen sample may be sent if available. No refunds will be provided for lock in deposits.
